That's what university life is all about. Challenging, questioning, enjoying good people and good friends, and pushing yourself to the limit – David Robinson

SHIMIZU DAY 2023

----- SHIMIZU CORPORATION

Shimizu Day is an annual event held by Shimizu Corporation in substantial universities all around the world that aims to share Shimizu's knowledge and innovation to the young generation as the pillar of construction world in the future.

To support that perspective, Shimizu Corporation as a biggest international general contractor originated from Japan commits to always innovate for a better future. Our company open opportunities for students, faculty members, and the public who want to know about the technological developments in the field of construction.

The event was held on the 9th November 2023 at Bandung Institute of Technology (ITB). There were 280 students from various departments/programs of study joined this event. Our main events are seminars and recruitment activity to get the best talent at construction industry.

In the morning, we started by introducing our company, then a seminar session on construction technology presented by experts in the field. In the afternoon, our final event was a recruitment & interview session for candidates/alumni who had applied to our company.

Seminar session I
Tech & Innovation in High Rise and Outlet Mall – Mr. Kevin; and **Tunnel Construction of AsahanNo. 3 HEPP Project** – Mr. Adhari

Seminar session II
Soil and Groundwater Remediation Technologies – Mr. Aoki Yoji; and **Floating Architecture** – Mr. Ito

Recruitment Activity :

At 13:30 PM, SHIMIZU CORPORATION held recruitment session which prepared 7 desk for interviews (Engineering, QAQC, HSE, Civil, MEP, GDD Architect, and GDD-ME).

1. Engineering: Mr. Eko Budi Santoso, Mr. Try Puji Santoso
