

# Shimizu Annual Plant-A-Tree Event

As part of Shimizu's CSR efforts and continued co-existence with society, it was time, yet again for us (Singapore Office) to give back to nature. Partnering with Nparks under the plant-a-tree program, Shimizu held its annual tree planting event at Springleaf Park on the 22<sup>nd</sup> of January 2016, with 150 people, including our staff and subcontractors vying to do their part.

The annual tree planting event started in 2011, with a whopping number of 712 trees planted and \$142,500 donated till date. This is part of an effort to enable Singapore to be continuously known as a Garden city state.

The 4 species of trees planted this year were all endangered species such as the *Sterculia-Parviflora*, *Sterculia cordata*, *Horsfieldiarya* and *Leea Inica*, out of which, the *Horsfieldiarya* is able to grow up to 40m in height and one of it is listed as a Heritage Tree at the Singapore Botanic Gardens, a world's UNESCO site.

## 2015/2016, Pasir Ris Park & Springleaf Park

Year	No. of Trees	Amount Donated (S\$)
2011	133	26,600
2012	145	29,100
2013	132	26,400
2014	134	26,800
