

Together We Plant a Tree, a Future

“Today’s Work, Tomorrow’s Heritage” refers to building works that will leave a tangible heritage to the next generation. Shimizu believes in not just constructing sustainable buildings but also giving back to the environment. In our annual Plant-A-Tree programme, family members of staff & industry partners are welcome to join in to instill in their children a good sense of responsibility for their next generation too.

This year event was held on 1 Nov 2019 at Changi Beach whereby 78 trees, amounting to a donation of S\$23,400, were planted.
