

Shimizu Corporation 1st Blood Donation Drive

On 30 June 2021, Shimizu Corporation held its 1st Blood Donation Drive at Bloodbank@HSA. The first drive was supported by seven staff who managed to donate their blood successfully. Our oldest donor, Mr. Peter Koh, 66 years old, is a regular donor who donated more than 60 times.

Shimizu Corporation hope to inspire more people to give back and save lives. As of 31 Dec 2021, a total of 12 donations have been made by our staff and we hope to encourage more staff to participate in the next donation drive.
