

G-TAC Expansion 2014

**Client:**

G-Tekt America Corporation

Facility Type:

Auto body frame component manufacturing facility

Location:

Canton, Michigan

Size:

20,000 s.f.

Construction Date:

Jun 2014 - Jan 2015

Overview:

This project was the third expansion project at this facility in Canton, Michigan. The 20,000SF expansion included all process mechanical and electrical utility work. In addition, energy efficient LED lighting was adopted to minimize operating costs. The work was completed in 6 months including design and permitting.
