

JAPAN AVIATION ELECTRONICS

Client:

JAE Oregon, Inc.

Facility Type:

Electrical Pin-Connector Manufacturing Facility

Location:

Tualatin, Oregon

Size:

50,000 s.f.

Construction Date:

February 1989 - January 1990

Overview:

Shimizu North America's Northwest Regional Office was selected to design and construct JAE's first post in the United States. While functioning primarily as a plant, the building also works as the headquarters for JAE's U.S. operations.
