

HYAKUGO BANK - INTERIOR

Client:

The Hyakugo Bank, Ltd.

Facility Type:

Bank Representative Office, High-Tech Facilities

Location:

New York, New York

Size:

10,000 s.f.

Construction Date:

April 1991 - July 1991

Overview:

Located in downtown Manhattan's World Trade Center, in one of the world's tallest and most famous buildings, this bank branch office includes elegant office interiors as well as a trading room. To complete this Design/Build project, Shimizu North America acted as the liaison between the client and the Port Authority, owner of the building.
